MAGNIFIED HEALING

WHAT IS IT?

This high-vibrational form of energy healing taps into the unconditional love of Ascended Master and bodhisattva of compassion, Quan Yin to raise your energetic vibrations and heal you on a physical, emotional, mental, spiritual as well as multi-dimensional level. It is an appropriate modality to opt for as we approach the end of the Mayan calendar on 21st December 2012, as it assists and supports you in your ascension towards becoming a high-vibrational being.

WHAT HAPPENS?

Samaya Boutopoulou is the picture of loving grace. She welcomes me so gently into the healing space at London's Buddha on a Bicycle that I have no qualms about placing my healing journey for the next hour in her hands.

Firstly, I am given a drop or two of a specially formulated flower remedy to

help me integrate the healing in the highest and best way. This is optional. Samaya then invites me to sit back and relax in my chair while she goes through the Magnified Healing process of clearing and balancing the chakras, awakening and rewiring my nervous system, redistributing the calcium in my spine, scanning and healing the physical and energetic body, offering karmic healing and activating my DNA. The healing then radiates out to the planet.

GEMMA'S VERDICT

I felt sublime after my session with Samaya. My heart and other internal organs felt as if they were encased in a bright, healing energy, which felt cool and refreshing. A few weeks later, when I meditated or sent healing to someone, I felt that same pleasant energy in my heart. Samaya is a true sparkle.
